Revenue Commissioner in Mysore, Bangalore.

SIR,

I have the honour to state that the Deputy Amildar of Gudibanda reports that the work of sinking new irrigation wells and the deepening of existing ones which were hitherto going on round about the villages of Huligombu and Yerrahalli in the Kasaba hobli of the Sub Taluk will come to an end in about a fortnight and that a large number of coolies will be thrown out of employment thereafter. and therefore proposes the taking up of the Huligombu Feeder Channel work. The channel has no separate atchakat but the amount of one year's assessment under the tank is Rs.511/- and the probable cost of the estimate is Rs.3,000/ The ryots are - - reported to be willing to pay 1,000/- as contribution in five annual instalments. As there is no other suitable work in the - locality that could be taken up and as it has become necessary to provide work urgently, I request that the sanction of Government to start the work may be obtained and communicated very early. This is not included in the programmes already sent up.
